EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ms. Christine C. O'Day on 11-9-07.

The application has been amended as follows:

Claim 53: Page 7, line 17, after 'rhinitis' delete "**, bronchitis, cystic fibrosis, and adult respiratory distress syndrome (ARDS)**".

Allowable Subject Matter

Applicant's amendment of 9-4-07, and the above Examiner's Amendment have rendered moot the previous rejection of 112/1st paragraph.

With no other outstanding rejection, pending claims 44-48, 51-53 and 55 are allowed.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

The invention is drawn to methods of treating asthma, and respiratory disorders.

The closest prior art, **Rupp et. al.** (cited on IDS), discloses a related tricyclic compound,

Art Unit: 1624

but lacking the guanidiny side chain. Thus, there is no anticipation and no motivation for a *prima facie* case of obviousness.

The reference, **Odingo**, is cited to support the activity of PDE4 inhibitors (such as those claimed herein) in the treatment of asthma, and rhinitis.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tamthom N. Truong whose telephone number is 571-272-0676. The examiner can normally be reached on M, T and Th (9:00-5:30).

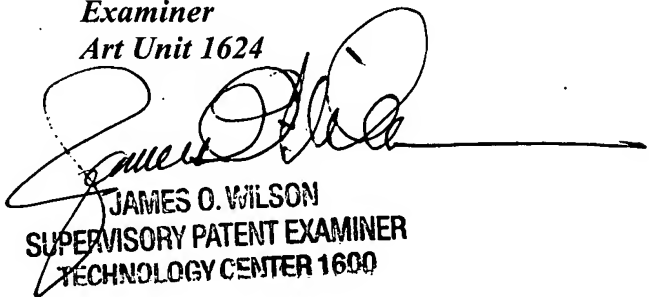

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, James O. Wilson can be reached on 571-272-0661. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
